SECTION 4. FIRST AID MEASURES

Eye Contact: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Do not rub eyes and seek medical advice if irritation develops or persists. Do not forcibly remove cured products.

Skin Contact: Remove contaminated clothing. Wash off with soap and plenty of water. If irritation occurs and persists, contact a doctor. Do not forcibly remove cured products.

Inhalation: Remove from exposure and move to fresh air. Get medical attention if feel unwell.

Ingestion: Never give anything by mouth to an unconscious person. Rinse mouth with water. Get medical attention immediately.

Advice to doctor: Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media: Do not use strongly water fog. As it may spread the fire.

Special hazards arising from the substance or mixture: Carbon oxides, Nitrogen oxides.

Advice for firefighters: Wear self-contained breathing apparatus and standard firefighting equipment for firefighting. Use water fog to cool unopened container in fire.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section 8.

Environmental precautions: Prevent further leakage or spillage if safe. Do not let product enter drains.

Methods and materials for containment and cleaning up: Small quantities may be absorbed with inert materials. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Gather the spilled product and keep in suitable, closed containers for recycle or disposal (see section 13).

SECTION 7. HANDLING AND STORAGE

Handling

Advice on Safe Handling:

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist.

Use in well-ventilated area. Keep away from heat/sparks/open flames/hot surfaces — No smoking. Avoid contact with skin and eyes. Avoid breathing concentrated vapor. Wash thoroughly after handling. Remove contaminated clothing and wash before reuse.

Storage

Requirements for Storage:

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Product is sensitive to light and moisture.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: Ethyl acetate: US-ACGIH=400 ppm.

Engineering Controls: provide enough ventilation. Provide safety shower and eye wash fountain.

Personal protective equipment:

Respiratory Protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls.

Eyes Protection: Use face shield and safety glasses if in-eye risk exists.

Body Protection: Wear suitable protective suit. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Hands Protection: Handle with chemical protective gloves. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product.

Other Protections: Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.
